	<b>5th (chromatic)</b>	Fully Functional	Fully functional	Fully Functional
<b>touch</b>	<b>1st</b>	Playback	Playback with limited control	TBD
	<b>2nd</b>	Fully functional	Fully functional	Fully Functional

\* When a 3rd generation iPod is used with this product, the iPod will not charge. Although 3rd generation iPods feature dock connectors, these iPods communicate via FireWire, not USB (which is used on all newer iPods). This difference makes it impossible for many products with dock connectors to provide a charge to 3rd Generation iPods.

*Due to the potential of future iPod firmware updates, this information may change over time.*
